

Framework Timetable - MSc Life Sciences

	Monday			Tuesday		Wednesday		Thursday					Friday		
	Specialisation Modules			decentralized Teaching		Specialisation Modules		Cluster specific modules					Core Competences		
Morning	V2	V3	V5	B-Modules	D-Modules	V1	V2	Food	BioPharma	Chemistry	Computation	Environment	B1, B3	D1, D2	
Venue	Wädenswil			Wädenswil		Wädenswil		Olten, Berne or online					online		
	Specialisation Modules			Specialisation Modules		Specialisation Modules		Cluster specific modules					Core Competences		
Afternoon	V1	V2	V3	V5	V3	V5	V1	V2	Food	BioPharma	Chemistry	Computation	Environment	B2, B4	D3, D4
Venue	Wädenswil			Wädenswil		Wädenswil		Olten, Berne or online					online		
Comment	- online lessons possible			- V2: only a few days - online lessons possible		- V2: only a few days - online lessons possible		a module always takes place for the whole day					Spring Semester	Autumn Semester	

Legend:

V1: Food and Beverage Innovation (FBI)
 V2: Pharmaceutical Biotechnology (PB)
 V3: Chemistry for the Life Sciences (CLS)
 V5: Applied Computational Life Sciences (ACLS)

Note:

The detailed weekly plans for the Specialisation Modules are published on the homepage four weeks before the start of the semester.

Detailed information on the modules on Thursday and Friday will be sent out by e-mail four weeks before the start of each module. Depending on the module, preparatory work may then already be required.

The Master's thesis takes place independently of the other modules and in coordination with your supervisor.
