1. Introduction

Complexis enables efficient and paperless processing of the master's thesis. The process starts with the submission of the assignment, i.e., at the latest two weeks before the beginning of the semester in which the master's thesis is submitted. You will be informed by mail as soon as the system is activated.

The following user guide explains all rights and responsibilities in Complexis. A process overview can be found at the end of this document.

If you still have problems or cannot find the information you need, you can always contact us under msc-ls@zhaw.ch.

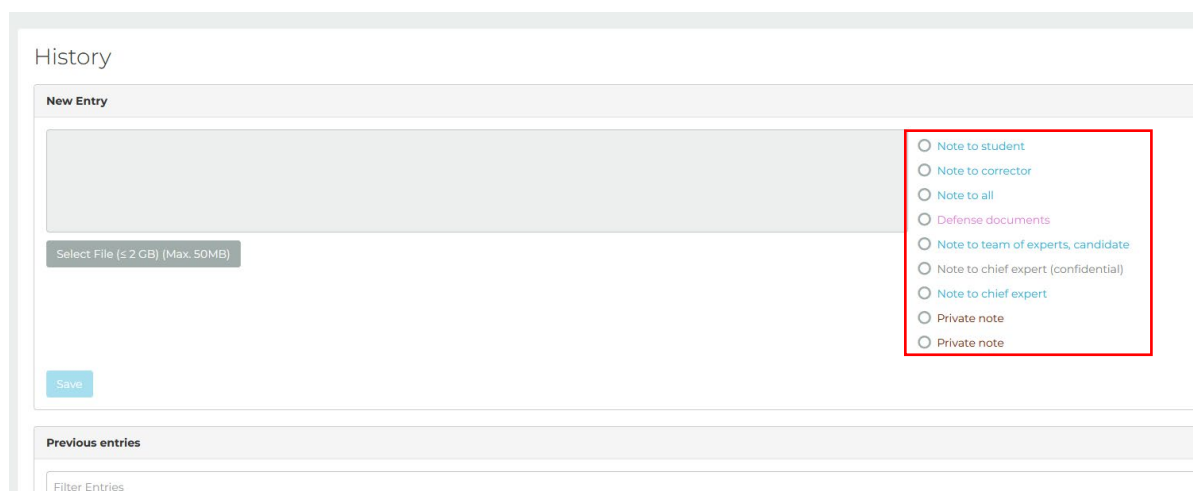

2. Login

Here is the link to the tool: <https://complexis.zhaw.ch/home>. Please use your Switch edu-ID to log in:

3. History

Messages can be sent to different people in the history. Of course, it is still possible to communicate with the supervisor and the administration office by e-mail.

4. Events

Under Events you can see which deadlines apply for the assignment and submission of the thesis:

Automatic reminders are sent by e-mail from Complexis before a deadline expires. Here is an example:

Please upload your Master's thesis in time. After the deadline, the function will be closed and you will no longer be able to enter anything. If you have any questions, please do not hesitate to contact us (msc-ls@zhaw.ch).

Best wishes,
Your MSLS Administration Office
